Individual Gourmet Thin Crust & Flat Bread Pizza

Individual Flat Bread Pizzas are a hot trend that just keeps getting hotter. They are a great menu item that can be sold ala carte for appetizers (try it as a shared appetizer), lunch, dinner or on a late night menu. They can also be paired with a small side salad for the value conscious customer. I came up with some non-traditional toppings that are sure to wow your customers. The food costs are low, the plate coverage is great and it fills the need for more adventurous cuisine. It is also a profitable way to cross-utilize products that you already have in your kitchen. Make some and make some \$dough\$!
