Material Safety Data Sheet
FIRST MARK METAL SAFE DISH MACHINE DETERGENT

Section 1. Chemical product and company identification

Trade name: FIRST MARK METAL SAFE DISH MACHINE DETERGENT
Product use: Machine Warewashing Detergent
Supplier: Performance Food Group
12500 Westcreek Pkwy
Richmond, VA 2328
(888)311-7372 ~ Fax (804)784-0576
Code: 912273-02
Date of issue: 02-October-2009

EMERGENCY HEALTH INFORMATION: 1-800-391-1504

Section 2. Hazards identification

Physical state: Liquid. [Liquid.]
Emergency overview: DANGER!
CAUSES DIGESTIVE TRACT, EYE AND SKIN BURNS.
CAUSES RESPIRATORY TRACT IRRITATION.
Do not ingest. Do not get in eyes, on skin or on clothing. Avoid breathing vapors, spray or mists. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects
Eyes: Corrosive to eyes.
Skin: Corrosive to the skin.
Inhalation: Severely irritating to the respiratory system.
Ingestion: Causes burns to mouth, throat and stomach.

See toxicological information (section 11)

Section 3. Composition/information on ingredients

</table>

Section 4. First aid measures

Eye contact: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Inhalation: If inhaled, remove to fresh air. If exposed person is not breathing, give artificial respiration or oxygen applied by trained personnel. Get medical attention immediately.

Ingestion: If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.
Section 5. Fire-fighting measures

Flash point: > 100°C
Hazardous thermal decomposition products: Decomposition products may include the following materials:
  - phosphorus oxides
  - metal oxide/oxides

Fire-fighting media and instructions: Use an extinguishing agent suitable for the surrounding fire.
  - Dike area of fire to prevent runoff.
  - In a fire or if heated, a pressure increase will occur and the container may burst.

Special protective equipment for fire-fighters: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions: Stop leak if without risk. Use suitable protective equipment. Keep unnecessary personnel away. Do not touch or walk through spilled material.

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods for cleaning up: If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dike spilled material or otherwise contain it to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

Section 7. Handling and storage

Handling: Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe vapor or spray. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Storage: Keep out of reach of children. Keep container in a cool, well-ventilated area. Keep container tightly closed.
  - Store between the following temperatures: 0 and 50°C

Section 8. Exposure controls/personal protection

Engineering measures: Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

Personal protection:
  - Eyes: Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.
  - Hands: Use chemical-resistant, impervious gloves.
  - Skin: Use synthetic apron, other protective equipment as necessary to prevent skin contact.
  - Respiratory: Wear appropriate respirator when ventilation is inadequate and occupational exposure limits are exceeded.

Name: POTASSIUM HYDROXIDE
Exposure limits:
  - ACGIH TLV (United States, 1/2009).
    - C: 2 mg/m³
  - NIOSH REL (United States, 6/2008).
    - TWA: 2 mg/m³ 10 hour(s).
Section 9. Physical and chemical properties

</tr>
</tbody>
</table>

Section 10. Stability and reactivity

Stability: The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur.

Reactivity: Extremely reactive or incompatible with the following materials: acids.

Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Hazardous polymerization: Under normal conditions of storage and use, hazardous polymerization will not occur.

Section 11. Toxicological information

Potential acute health effects:
- Eyes: Corrosive to eyes.
- Skin: Corrosive to the skin.
- Inhalation: Severely irritating to the respiratory system.
- Ingestion: Causes burns to mouth, throat and stomach.

Potential chronic health effects:
- Target organs: Contains material which may cause damage to the following organs: lungs, upper respiratory tract.

Section 12. Ecological information

Ecotoxicity data: Not reported

Section 13. Disposal considerations

Waste disposal: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

Section 14. Transport information

Certain shipping modes or package sizes may have exceptions from the transport regulations. The classification provided may not reflect those exceptions and may not apply to all shipping modes or package sizes.

UN Classification
- UN number: UN1814
- Proper shipping name: POTASSIUM HYDROXIDE SOLUTION
- Class: 8
- Packing group: II

See shipping documents for specific transportation information.
Section 15. Regulatory information

HCS Classification : Corrosive material
                    Target organ effects

U.S. Federal regulations

TSCA 8(b) inventory : All components are listed or exempted.

SARA 302/304/311/312 extremely hazardous substances: No products were found.

SARA 302/304 emergency planning and notification: No products were found.

California Prop. 65 : No products were found.
